### Be Social.

#### Where Should You Post?

**LinkedIn** is an effective platform for sharing informative content. Professionals who are on LinkedIn are looking for opportunities

**Facebook** promotes the "human" side of the brand and lets you

**X** is a place to see the latest news and "what's happening." It's common to use Twitter for

**Instagram** helps show off company culture and can also your business.

#### **Use Social Media to Engage with Customers and Prospects** on the Platforms They Prefer.

Most of your target audience is using social media to find industry-related news and education. Be proactive and connect with your prospects and buyers on the social platforms they use.

- 92% of B2B buyers use social media platforms specifically to engage with industry thought leaders (Bambu, 2024).
- More than 50% of revenue across 14 major industries is generated by social sales. 75% of B2B buyers and 84% of C-level executives are influenced by social media when making purchasing decisions. (smallbizgenius, 2020)

Connecting with customers and prospective customers can benefit you in several ways:

- Build/strengthen relationships
- Introduce yourself to non-customers
- Expose your content to a broader audience
- Create opportunities to engage with customers and prospects

#### What Should You Post?

LinkedIn is more of an educational platform. Feature informative industry content rather than sales literature on your company's LinkedIn page.

- Share blogs. Embed a link to one of the blogs we've provided in the toolkit. Be sure to comment on why the information is relevant to your audience.
- Share an industry article that would interest your prospects and customers or insights you've learned from a recent webinar or customer visit.\*
- Share a photo and interesting comments from a customer visit.\* Link to your company website.
- Share information about an upcoming event where people can meet you and your team. Include a link to your company website.
- Share photos and information about new products you are carrying. (It's ok to do occasional product posts.) Link to your company website.
- Share news releases you have created and don't forget the link to your website.
- Make sure your sales team and other employees share the posts on their LinkedIn feeds, too. This will increase the number of people who see the posts.

<sup>\*</sup>Always get permission from customers before posting any information about them.

### Be Social. (Continued)

#### Where Should You Post?

**LinkedIn** is an effective platform for sharing informative content. Professionals who are on LinkedIn are looking for opportunities

**Facebook** promotes the "human" side of the brand and lets you

**X** is a place to see the latest news and "what's happening." It's common to use Twitter for

**Instagram** helps show off company culture and can also your business.

Facebook is the platform for more promotional and product-focused content.

- Use the product images we've provided in the toolkit. Add your personal comments to the post, and link the post to your company
- Rotate different product videos and images weekly.
- Post photos of your employees at work, having fun, and at events.
- Let people know about community and non-profit events you support.

The content you post on your Facebook and LinkedIn pages can be repurposed on your X feed.

Much of the content you post on your Facebook and LinkedIn pages can also be posted on Instagram. In addition to showcasing company culture, Instagram is an ideal forum for showing off great photos.

#### Don't Have Social Pages for Your Company?

If your company doesn't have branded social channels, then post the content on your personal social media. We recommend focusing on LinkedIn. Reason: it's likely you and your employees have professional connections with your prospects and customers on LinkedIn. It's less likely that their friends and followers on Facebook are in the medical imaging profession.

### **SOCIAL MEDIA SUPPORT**

Most of your target audience uses social media to find industry-related news and education. Be proactive and find buyers where they prefer to hang out, rather than hoping they somehow find you.

Today, it's essential to integrate social media into your marketing activities. We've created a social media post and artwork for you to use in your Linked In, Facebook and Instagram accounts.
